Nguyen Van Minh

Software Engineer

SUMMARY

Around 7 years of extensive experience in web applications.

I have a good understanding of JavaScript and have worked with frameworks such as Vue.js.

Additionally, I am familiar with Next.js, jQuery, HTML, HTML5, CSS3 and Sass.

I also have experience with PHP and have worked with Laravel and Codeigniter 3 frameworks, utilizing MySQL as the database.

Moreover, I have some knowledge of CI/CD and deploying applications using GitHub Actions and Bitbucket Pipelines.
